ONE would think that the Enquirer would soon tire of the "clean" campaign. It is waging. Our readers are referred to another affidavit in today's paper. Such names as those of affidants go in this community and conviction goes with them.

THE county central democratic committee is in session in Provo today. The attendance is good and the reports that the members bring from all parts of the county are more than flattering.

GIVE Joe a bumper house tonight.

Mrs. JOHN A. BROWN was this morning cleaning out a bottle which had contained lye. Some of the liquid splashed out of the bottle and into the lady's eyes. She is now suffering excruciating pain and it is feared that she has lost the sight from her left eye.

It seems that Judge Jones' little secret can't be kept. It happened this way: The judge was over at Mercer one day last week, electing for himself, he wants to go to the constitutional convention. A Mr. Greaves, an assayer, was very busy expounding the principles of populism—in fact he was converting many men to his way of thinking. He was the talk of the camp. The judge was in the office of the superintendent of the Mercier mine and the conversation turned upon Mr. Greaves and the iron-ore he was making into the republican ranks in that vicinity. The judge remarked to the superintendent, who, by the way, has been a life long republican, saying, "Come with me. We'll go and see this man Greaves, and I'll gamble that in less than half an hour I'll convert him to republicanism." The two went. They met Mr. Greaves. They had a conversation of a half-hour's duration. At the end of it Judge Jones had forgotten his intention of converting Greaves, and was himself converted. At least it is said that he admitted that the republican party so far has proven itself anything but the friend of silver, and declared that if the next time the republican party had opportunity it does not declare free silver, he will join, train and vote with the populist party. "If the republican party," said Jones "does not change its tactics, I will change mine." The effect of the confab upon the superintendent was to convert him to democracy. He is now at the head of the populist working democrat.
